

PLEASE do not change the wisconsin No Call policy. Until we registered for the No Call List, we were constantly being inconvenienced by calls from solicitors on every subject under the sun. They would call at all hours of the day and night. I work a rotating shift where I have to sleep days when I work nights. The calls were so inconsiderate, I had to disconnect my phone during the day when I slept. This created a serious inconvenience for my wife who worked during the day. So, please, please, please, do NOT change the current policy to bring back these unwanted calls. Thank you for reading my comments.
